

ALG-HP301

HAZPAD 301 CHEMICAL ABSORBENT PADS

- Specially designed, efficient clean-up absorbent pads for soaking up spill of acids, bases or unknown liquids
- Made from 100% polypropylene, sonic bonded “dimples” for added holding power and eliminate wicking problem
- Perforated in the centre to reduce wastage
- Bright yellow colour for easy identification
- Suitable for aggressive chemicals such as Acids, Caustic and Organic Solvents
- Sizes : 40cm x 50cm / Pads
- Packing : 100 pads per Case
- Absorbs 27 Gallon per Case

ALG-202-S / ALG-202-L

HAZARDOUS MATERIAL DISPOSAL BAG

- Al-Gard's Hazardous Material Disposal Bag is made of superior polymer materials that allow it to withstand and contain hazardous materials and chemicals confidently
- Tough polyethylene bags resist punctures, tearing and blowouts from sudden impact
- Durable 3 mil thickness allows for an extended storage lifespan and withstand greater load
- Bright yellow bags are labelled in bold letters, to denote that chemicals present within the bags are to be handled with safety precautions in place
- Dimensions: 18" x 30" (Small) - Sold in packs of 50
- Dimensions: 60" X 36" (Large) - Sold in packs of 25
